01. Abrahanson M.W, (1979) "Contractual risk in tunneling": How they should be shared
Tunnels and Tunneling, Nov pp 587-578
02. Alfred, A.M & Evans,(1965) J.B Discounted cash flow principles and short cut
techniques, Chapman & Hall
03. Akintoye A.S and Macled M.J ; Risk analysis and Management in Construction :
Journal of Project Management; Vol 15,31- pg 38
04. Bandari R.K. (1993) QA Procedures in site investigation, foundation design and
construction; paper presented at a seminar on QA systems for Construction industry
at ICTAD
05. Bowen P.A, Edwards P.A and Stewart P.J (1994), Construction risk management
system: Completing the paradigm; Engineer journal; pg51-58
06. Brandon, P.S (1992) Quantity surveying techniques and new directions, 2nd Edition,
Blackwell scientific publications, London
07. Byrne, P and Cadman, D (1984); Risk, Uncertainty and Decision making in Property
Development , E & F.N Spon (Chapman and Hall) London
08. Chandrasena H.D. (1999), SLS 573 Revision 1999, Paper presented at introductory
seminar, ICTAD auditorium
09. Chapman, C.B (1991) Risk in Investment, Procurement and Performance in
Construction (P Brandon and T Mole) London pp 259-75
10. College of State Management (1990), Contract procedures, postal course, CALUS
publication research paper
11. Cooper, D.F and Capman, C.B (1987) Risk analysis for large projects; Models,
Methods and Cases, Wiley, New York
12. Daniel Real de Azua, (1990), The Contractor's Column, National Development Vol
31 pg 36
13. Dave S Langford, (1992), Towards assessing risks, Building Economist, July pg 54
14. Flanagan R and Norman G; (1993) Risk Management and Construction; 1st edition,
Blackwell Scientific Publication; Oxford

15. Harris ,F and McCaffer R. (1994) Modern Construction Management, Granada
16. Hirshleifer J and Riley J.G (1992) The Analytics of Uncertainty and Information, Cambridge Survey of Economic Literature, 1st Edition
17. Hages R. (1985) Risks of Management Contracting, Quantity Surveyor 8(5), pp 197-198
18. Hodgetts, M.F. (1987) Risk Management and Cost control, Building Economist 26(3) pp 17-20
19. Hayes, R.W, Perry,J.G, Thompson, P.A and Wilmer, G. (1986) Risk Management in Engineering Construction , Thomas Telford, London
20. Hertz, D.B and Thomas H (1983); Risk Analysis and Its Applications; Wiley,New York
21. Mason, D.E (1973), A Quantitative Risk Management Approach to the Selection of Construction Contracts
22. Mc George, D (1992), Seminar paper on Risk Management, ICTAD Auditorium
23. Newton, S. (1992), Methods of Analysing Risk Exposure in the Cost Estimate of High Quality Offices; Construction Management and Economics; Vol 13 pp 15-21
24. Oruko, P.E.O (1997), Procurement system and Cost control, Paper for the M.Sc Project Management course of study, University of Moratuwa
25. Oruko PEO (1994), Procurement systems in Construction industry, Paper for the National Conference on Project Management in Construction, BMICH Colombo
26. Oruko, P.E.O (1992), Construction Cost Control; Quantity Surveyor, 1(2)
27. Odams, A.M (1995),Risk Management and Procurement in Construction; Centre of Construction Law and Management; GB
28. Perry, J.G and Thompson, P.A (1992), Engineering Construction Risk; A guide to Project Risk Analysis and Risk Management; GB
29. Poulquen, L.Y. (1970), Risk Analysis in Project Appraisal; World Bank Staff, Occasional paper , Johns Hopkins Press, Baltimore
30. Ranasinghe, M (1992) Analytical approach for Economic risk quantification of large engineering projects ; Construction Management and Economics, Vol 10 pp 45-68

31. Ranasinghe, M; (1992), Contingency allocation and Management of Building projects; Construction Management and Economics; Vol-12, pp 233-243
32. Raftery, J (1994), Risk analysis in Project Management; 1st Edition, E & FN Spon; London
33. Rosenberg S.B., Dyer L, Harvey D.A., McLaney, E. (1984) Finance – Core Business Programme facts on File Publication, NY 10016
34. Spence, J.M (1980), Modern Risk management Concepts; BSFA conference on ‘Risk Management in Building” Sydney pp 21-29
35. Shiran, H.M (1986), The Risk Allocation with the Contractor during construction and the impact of insurance”; Research Paper; Department of Building Economics; University of Moratuwa, Sri Lanka
36. Wilcox C, Snape J (1982), Worked examples in Measurement of Construction Works, Longman 1st Edition
