Introduction

A.	Topic explanation	1
B	Need of the study	2
C.	Intention and scope of study	3
D	Methodology	4

Chapter One

The relationship between material usage and acceptance in architecture

Introduction	6	
1.1	Role of materials in architecture	7
1.2	Historical evolution of usage of materials	8
1.3	Factors of consideration in usage of Materials in architecture	10
1.3.1	Architectural expression	10
1.3.1.1	Generators of architectural expression	10
	a. User	11
	b. Activity pattern	11
	c. Context	12
	d. Higher purpose	12
1.3.1.2	Contribution of materials and modes of architectural expression	13
	a. Form	13
	b. Shape	13
	i building elements	14
	ii texture	14
	iii colour	14
	iv ornamentation	15
1.3.2	Cost of materials.	15
1.3.3	Sustainable Environment.	16
1.4	Problems behind the architecture and material usage	17
1.5	Conclusion	18

Chapter Two

The concept of 'usage of salvage materials' in Architecture and contemporary view

Introduction	19
2.1 Salvage concept in Architecture.	20
2.1.1 Phylosophy behind the concept of 'salvage' culture	22
2.1.2 'Salvage' effects on Architecture	23
2.1.3 'Salvage' attitudes in Architecture	25
2.2 Principles of "salvage" in architecture.	27
2.2.1 Revival of Salvage Buildings	27
2.2.2 Conservative disassembly of salvage building materials & elements	27
2.2.3 Reusing salvage waste materials	28
2.3 Usage of salvage materials in Sri Lanka	30
2.3.1 Historical perspective of usage of salvaged materials in Sri Lanka	30
2.3.2 Sri Lankan point of view in current situation of using building materials	32

Chapter Three

Contemporary usage of Salvage materials to make different faces in Architecture.

Introduction	34
3.1 Local Examples	35
3.1.1 Antique expression -Lunuganga	35
3.1.2 New interpretation of informal living style-Steel house	39
3.1.3 As a method of low cost construction- Non architectural works	41
3.2 International Examples	44
3.2.1 Brayant House	44
3.2.2 Yancy Chapel	46
3.2.3 The children's centre	47
Disscussion	50
Conclusion	51
Bibliography	54

Acknowledgement

I wish to acknowledge with deep gratitude and utmost regards to all those who assisted me in preparation of this dissertation.

First and foremost, it is my bounden duty to express my indebtedness to year masters and the staff of Architectural faculty of University of Moratuwa, for their sincere assistance in numerous ways to make this endeavor a success.

In very deeply thank my beloved parents and Manoj for the support and encouragement given to overcome the difficulties faced with, in the course of the preparation of this dissertation, to make it a worthy piece of literature.

My heart-warming thanks go to Namali and my friends for the encouragement and help given in my efforts.

Finally I thank all those who helped me in my studies within the faculty of Architecture of University of Moratuwa and outside at large.
