## CONTENTS

---

<b>Content</b>	<b>i</b>
<b>Acknowledgements</b>	<b>v</b>
<b>List of illustrations</b>	<b>vi</b>
<b>Introduction</b>	<b>xii</b>
<b>Chapter 01: The Street, defined.</b>	
1.1 The street – as it speaks.	01
1.2 The street in history	02
1.2.1. The Street in Sri Lanka	03
1.3 Street meanings	05
1.3.1. The street as a social link	05
1.3.2. The street in two dimensions	05
1.3.3. The street in three dimensions	05
1.4. Street, road, path and alley	06
<b>Chapter 02: The Street as a total stimulus</b>	
2.1. Functions of streets	08
2.1.1. The street as a place of sensory stimulus	08
2.1.2. The street as a place of communication	11
2.1.3. The street as a public open place	13
2.1.4. The street as a social fact	14
2.1.5. The street as a place for celebration	16

2.1.6. The street as a living space	18
2.1.7. The street as a place for learning	19
2.2. Elements of street	20
2.2.1 Urban Forest	21
2.2.1.1 Street trees	21
2.2.1.2 Above-ground landscaping	23
2.2.2. Storm water management	26
2.2.3. Street lighting	27
2.2.4. Paving	28
2.2.5. Site furnishing	29
2.2.5.1 Benches and Seating	29
2.2.5.2 Bicycle Racks	30
2.2.5.3 Bollards	31
2.2.5.4 Kiosks and Gateway Monuments	31
2.2.5.5. Public Art	33
2.2.5.6. Traffic and Parking Signs	33
2.2.5.7. Way finding Signage	33
2.2.6. Footpaths	34
2.2.7. Carriageway	34
2.2.8. Bus rapid transit	35
2.2.9. Medians and pedestrian refuges	35
2.2.10. Bus stops	36
2.2.11. Spaces for street vending	36
2.2.12. On-street parking	37

2.2.13. On street parking	38
2.2.14. Service lanes	38
2.2.15. Traffic calming elements	38
<b>Chapter 03: Making the street a better place for community</b>	
3.1. Characteristics, increase the social presence on streets	39
3.1.1. Accessibility	39
3.1.2. Public gathering	41
3.1.3. Publicness	42
3.1.4. Safety	43
3.1.5. Comfort	44
3.1.6. Livability	45
3.2. Creating legible streets	46
<b>Chapter 04: Case studies</b>	
4.1. Case study 01 - “Dalada weediya” street in Kandy	50
4.1.1. The “Dalada Perahera” ceremony in history	51
4.1.2. The importance of “Dalada Perahera” ceremony	52
4.1.3. The street “Dalada weediya” as a talking street	53

4.2.1. Slave Island in history	64
4.2.2. The Malay Street as a talking street.	65

<b>Conclusions</b>	<b>71</b>
<b>Bibliography</b>	<b>73</b>

## ACKNOWLEDGEMENTS

---

I heartily express my gratitude and sincere thanks to many individuals. It is because of their guidance, advices, which helped me to do this study at a preferable stage.

The head of the department Arct.D.P.Chandrasekara, Our year masters Prof. Shirani Balasooriya , Landscape Arct. Susira Udalamaththa, for the guidance, motivation, valuable thoughts and tolerance with my shortcomings.

My warmest gratitude goes to my tutor Dr.John Byrom for his highly inspiring words. He took great pains to read through the draft and his ability to convey a message using few words kept me thinking of the study for few days after each encounter enabled me to focus on my path.

I'm very thankful to Sanjeewa , Kalpa and Ranmuthu for their contribution and very special thanks to Manjula, Ruwanthi and Amanda for their effort and pain taken to enlighten me on this subject.

Mrs.Malkanthi and Chapa the non-academic staff of University Landscape unit are also mentioned with gratitude.

My mother and my brother are reminded with a feeling of profound gratitude with love for all the help, encouragements, patients and their good wishes.

My dearest father, whatever the words you have taught me and lessons given since my birth, and assists me to become successful in my life, I don't have words to express my gratitude to you.

15	Street use as a public open space in New York	14
16	Street use as a public open space in New York	14
17	Trade unions take to the streets in Colombo	14
18	People observing other people	15

19	Inhabitants of the city, observing their relationships with each other and with the surrounding area	15
20	New Year celebrations in Barcelona city streets	16
21	Festival “Gracia” celebrations in Barcelona city streets	16
22	Cycling event along the street	17
23	Open Streets events give a stage to healthy recreational activities	17
24	People living in poverty using street for bed rest in India	18
25	Streets using as a dining space in India	18
26	Street using as a play space	19
27	Street using as a play space	19
28	Street trees enhance the streetscape character	21
29	Street trees enhance the streetscape character	21
30	Street trees with blooming flowers making a magnificent environment For pedestrians	22
31	Street trees with blooming flowers making a magnificent environment for pedestrians	22
32	Landscaping of different sizes, colors, and types add rich variety to the streetscape.	22
33	Many existing sidewalks can be retrofit to include simple but attractive planting areas	23
34	Tree Basins can be lined or edged in many different ways.	23
35	Tree Basins can be lined or edged in many different ways.	23
36	Tree Basins can be lined or edged in many different ways.	23
37	Hanging baskets provide a buffer between the roadway and sidewalks	24
38	Hanging baskets provide a buffer between the roadway and sidewalks	24
39	Raised planting beds create opportunities to integrate seating walls	25

40	Planters should be used to define the edge of seating areas within the sidewalk	25
41	Storm water management tools are highly customizable and can be designed in ways that are appropriate to a wide variety of contexts	26
42	Storm water management tools are highly customizable and can be designed in ways that are appropriate to a wide variety of contexts	26
43	Rain gardens are highly customizable, and can be designed to fit into any number of spaces within the streetscape. The above rain garden includes a channel, behind the pedestrian, to convey roadway runoff to the landscaped treatment area.	26
44	Channel covers can use attractive grates and can be integrated with other site design elements.	26
45	Light fixtures are an important visual element of a street not only because they provide light at night, but also because they set a strong visual rhythm and can reflect a specific style or aesthetic.	27
46	Pedestrian scale lighting fixtures better light the pedestrian way, providing an improved sense of security and comfort.	27
47	Patterns and designs within fields of a material can add unique and interesting detail	28
48	Seating should be integrated with other elements, such as tree guards, where possible	30
49	Bicycle racks should be located at popular destinations	30
50	Bike racks can be combined with other streetscape elements such as tree guards.	30
51	Bollards protect pedestrians from passing traffic and can be an attractive streetscape accent.	31
52	Bollards come in a variety of sizes and designs.	31
53	Gateway elements	32
54	Kiosks enhance the sense of the street as a community gathering place. They can be used to post flyers and promote civic engagement and can	32

sometimes be used by tourism agencies and ticket vendors.

55	Public art can be functional or include functional elements, such as an attractive bicycle rack or an element that includes seating.	33
56	This footpath is wide, continuous, and shaded. However, the continuous fencing towards the carriageway prevents free pedestrian movement although it also discourages its illegal use for vehicle parking (in India)	34
57	A properly scaled carriageway keeps vehicle speeds low and prevents wrong-way driving in Sri Lanka	34
58	This BRT station facilitates high quality service for passengers since it is located in the median and operates with level boarding and offers shade and shelter while waiting. It also leaves sufficient queuing space at the intersection, but needs clear and safe crossings on each side	35
59	This opening in a median allows pedestrians to cross without climbing over the fence and waiting on the carriageway.	36
60	This bus stop provides protection from the elements, is elevated above the carriageway, displays customer information, and has a clear identity as well as providing a rest point.	36
61	Informal activities enliven public spaces while providing a source of livelihood for vendors and inexpensive goods for customers.	37
62	Vendors may be more willing to participate in the upkeep of the spaces they use if municipal authorities provide formalized areas for street vending.	37
63	Vendors may be more willing to participate in the upkeep of the spaces they use if municipal authorities provide formalized areas for street vending.(in India)	39
64	Sides defined, but accessible (in Sevanagala, Sri Lanka)	39
65	Encouraging pedestrian accessibility by using shaded walkways (in New York)	40
66	hand rail use as a barrier in High street, Ohio	40
67	James Street, London	40
68	Streets with a lot of signage can become cluttered and confusing (In China)	47

69	Public artwork may acts as a landmark/social meeting place that people become familiar with. (In China)	48
70	The unique topography has shaped the design of this street and Characterizes other streets in the area, giving broad panoramic vistas along their lengths.(in New Zealand)	48
71	The temple of tooth	51
72	the tooth relic taken in procession around the city	52
73	Dalada weediya in the year 1900	53
74	Queens's hotel as important historic building facing to the street	53
75	The map of procession path	54
76	The map of selected places	55
77	place A in day time	56
78	place A as a pavilion in ceremonial days	56
79	Place B in day time	57
80	Place B in ceremonial days	57
81	View of the junction	58
82	view of the road	58
83	People gather along the road	58
84	Sri Dalada Perahera	59
85	Crackers along the road	59
86	Fire workers create a warmer yellowish appearance	60
87	Drummers provide various rhythm of sounds	60
88	Elephants of the perahera create honorable feeling long the street	61
89	Carrying tooth relic is the most prominent event of the perahera	62
90	The power of Diyawadana nilame highlighted through the colors	63
91	Dancers of the Perahera	63
